

MITCH CASTER, ACAS, MAAA

Consulting Actuary | Indianapolis, Indiana

Mitch serves as lead analyst and project manager for insurance companies, performing both interim and year-end loss reserve analyses. He also provides funding studies for prospective captive group members and single parent captive programs.

Mitch has experience in assignments involving loss cost projections and financial analyses of insurance companies. He has worked extensively with feasibility studies for group captive insurers. His experience ranges from more traditional lines, such as workers' compensation and general liability, to more unique coverages that fit more specifically to the group captive. Mitch has also assisted in providing actuarial support to insurance departments for financial examinations.

Mitch also assists with the preparation of statements of actuarial opinion, actuarial opinion summaries and actuarial reports.

- ★ Qualified to sign statements of actuarial opinion per the American Academy of Actuaries (AAA)
